

## Voluntary Contributions & Library Trust Fund 2025

Dear Parents and Caregivers,

Voluntary contributions help provide our school with extra resourcing that supports the enrichment of your child's education. This funding allows us to purchase additional **resources** and provide additional learning opportunities for your child.

In 2025, we plan to share our progress on Voluntary Contributions and would like to provide families with the opportunity to have their say on what the contributions will be spent towards by placing a vote (more information to come at the end of term 1).

### Options for contributions

- **Theodore Primary School** where the funds raised will be used for resources for Preschool to year 6.
- **Library Trust Fund** (tax deductible contribution) provide resources only for the school library.

The School Board has set the voluntary contributions as \$100 per family. You will notice that this is a reduction on the previous amount of \$130 for families with two or more children.

Families are welcome to contribute more or less than the set amounts if you choose. It is also now possible to set up a payment plan of manageable amounts through the **Parent Portal**. These contributions are applicable from **preschool to year 6**.

*Kind regards,*

**Nathan Pepper**  
**Principal**

*Please Note: The payment of these financial contributions is voluntary. The Education Act 2004 states that your child will not be refused benefits or services if you do not choose to contribute. Individual records of contributions are confidential.*
